Puppy Photos Needed!**

I may be biased but I don't think there is a cuter puppy than a Basenji puppy!! As 2007 Basenji puppies are arriving, please remember to keep your cameras handy. Capture those images of your new pups as they romp, play and discover life. Then send them in for consideration in the 2008-2009 Basenji puppy calendar. This will be a 16-month calendar guaranteed to give you that needed "puppy fix" every time you look at it.

Proceeds from the sale of this calendar will benefit our 2008 BCOA National Specialty in Plano, Texas. You can mail your photos\* or send digital files via email\*\*. **BALLOT 2007 – 71: APPROVED**              **SUBJECT: RECONSIDERATION OF SPECIALTY LEGACY DATES**  
Postmarked December 6, 2007              Effective December 16, 2007

First, consider **BALLOT 2003-35**

Preface to Ballot 2003 - 35 In order for everybody to understand the issues in this ballot, here are a couple of AKC policies:

1. For a club to hold a show, AKC grants its permission by the numbered weekend, not the day of the month. AKC figures show weekends this way: the first show weekend is the first weekend to occur in which Saturdays date is neither January 1 nor January 2. Thus in 2003 the first show weekend was January 4 - 5; in 2004 it will be January 3 - 4; and in 2005 it will be January 8 - 9. So the dates for a club's show will change according to AKC numbered weekends.
2. If a club holds a show on a particular weekend or joins (on Friday or Monday) with shows on that weekend, the AKC considers that the first time this occurs establishes a corresponding date for that club for the following years or until such time as the club requests a different date. That club has a "legacy" date, i.e. it has "dibs" on that date for the next year. If that club changes to another weekend or does not hold a show on that weekend, the club goes back to square one, relinquishing its claim to the former legacy date.

**Continued from page 4: BALLOT 2007 – 71: APPROVED**

The President has asked that we make a statement clarifying the policy governing the Board's decision to approve local specialties. In each specific case of approval for a member club's specialty, the BCOA Board of Directors has based its decision on the principles above, in accordance with AKC policies regarding dates. The Board also does not approve conflicting dates for specialties within our own designated regions, even though the AKC distance requirement [200 miles between shows] would permit those shows. (AKC would permit a club to hold a show within another club's territory but only with the other club's permission for both the show and the date.) These policies underlie the Board's request that a club inform the Liaison as early as possible of the club's intention to hold a show either on its legacy date or on a new date. This ballot was approved in 2003.

For Ballot 2007 – 71, consider revising this statement to read:

While the BCOA Board discourages affiliate clubs from scheduling specialties that may conflict with another club's date in the same designated region, the Board shall consider, on a case-by-case basis, the approval or disapproval of such should a date conflict arise. The Events Coordinator shall notify the BCOA Secretary of any such conflicts. Consideration will be given to the distance between the two events and the impact of reduced entries to one or both clubs. The Board shall provide the Events Coordinator with its decision.

**APPROVED:** Auerbach [I think conflicting specialties should be **very strongly** discouraged, not just discouraged, and every possible alternative should be explored by the clubs involved before a conflicting date is presented to the Board for consideration. I also expect that, if the Board is presented with such a case, the Board will approve such conflicts of scheduling only in the most exceptional circumstances and after every alternative has been considered. I am approving this ballot because of these expectations. I do not think that conflicting specialties should be scheduled or approved in non-exceptional circumstances, due to the many problems such conflicts give to clubs and exhibitors.]

Curby; Graves; Greenlee; Hesse: [I approve this ballot to give the club more flexibility. Our regions are now so large that affiliate clubs holding specialties at opposite corners of a region could not be considered to be real competition for one another, and we should be able to allow conflicting specialties in those cases if absolutely necessary. Ironically, clubs in neighboring states but different regions could be in more conflict than widely separated clubs in the same region. Ideally, there would never be two basenji specialties held on the same date anywhere in the country.]; Pooley; Stargell

**DISAPPROVED:** Bolté; Jones [Because exhibitors will travel farther for a specialty show than they will for an all-breed show, it is in the best interest of clubs within the same region to hold their specialties on different dates. Otherwise, one specialty show will suffer from lost entries.]; Schreiber [After much thought, I believe this change has the potential to pit regional clubs against one another, and may encourage them to spar with one another for potentially advantageous regional specialty dates. We need to provide BCOA affiliate clubs that draw from the same pool of entries with some sense of security that their specialty entries will not be decreased by conflicting BCOA-approved affiliate club specialty dates within the same region.]

**BALLOT 2007 – 4****SUBJECT: GRANT FOR FURTHER STUDY OF FANCONI MARKERS**

Postmarked November 23, 2007 Effective December 3, 2007

Please mark your vote on approving this request for fifteen thousand (\$15,000.00) dollars from Gary S. Johnson. College of Veterinary Medicine, University of Missouri – Columbia:

A search for the mutation responsible for Fanconi Syndrome in Basenjis:

In past studies funded by the Basenji Health Endowment and the Canine Health Foundation, we have mapped the Fanconi syndrome locus to a 41 Mb region of CFA3. Fine mapping reduced the target region to 2.6 MB; however, examination of the coding regions of genes within this region has failed to reveal the causative mutation. Nonetheless, 94 affected Basenjis were all homozygous of the same haplotype within this target region. More recently the Basenji Health Endowment has funded the development of a linked marker test consisting of three multiplexed microsatellite markers from the affected haplotype. This test was used to genotype approximately 1300 individual Basenjis. In new studies, we propose to identify all affected Basenji with Fanconi syndrome that were not homozygous for the complete haplotype plus several other distantly related affected Basenjis and genotype them

Continued from page 5**SUBJECT: GRANT FOR FURTHER STUDY OF FANCONI MARKERS**

with a dense array of SNP markers using SNP chip technology. We expect to find a region of common homozygosity on CFA3 which will confirm and further refine the targeted region. We will then resequence the genes in the refined target region, including the coding, promoter, and intronic regions. This strategy should reveal the mutation responsible for Fanconi syndrome. We will then devise a DNA test that detects the causative mutation and offer this test to Basenji breeders in a program to eradicate Fanconi syndrome by marker-assisted selective breeding. We are asking for \$15,000 to continue this research.

**BALLOT 2007 – 73: APPROVED****SUBJECT: FUNDS FOR BHE AND GARY JOHNSON**

Postmarked December 15, 2007 Effective December 25, 2007

Please mark your vote on approving the donation of funds:

two thousand seven hundred (\$2700.00) dollars to Basenji Health Endowment, and three hundred (\$300.00) dollars to Dr. Gary Johnson at the University of Missouri

to be used for further research into Basenji health research, especially Fanconi syndrome.

**APPROVED:** Auerbach; Bolté; Curby; Graves; Greenlee; Hesse; Jones; Pooley; Schreiber; Stargell

**BALLOT 2007 – 74: DISAPPROVED****SUBJECT: REQUEST FOR SPECIALTY DATE APPROVAL**

Postmarked December 29, 2007

Effective January 7, 2008

Please send your vote on approving the request of the Basenji Fanciers of Greater Phoenix to hold their specialty show on AKC Weekend # 42 (October 18) 2008.

**APPROVED:** Graves [“I feel that BFGP has made a long-term, good faith effort to find another date for their show, and I know that the number of show entries fluctuates for many reasons. I fear that losing this date will contribute to losing another local Basenji affiliate club.”]; Greenlee [“It will likely impair BCONC's entries, but otherwise Phoenix will continue to have its entry severely impaired--as verified by every alternative Phoenix has tried over the years. When the November show that did work for Phoenix changed its date to January, Phoenix was effectively left with no date, other than Kachina, that would not be a money-loser.”]; Pooley [“This is a difficult decision because one club will be disappointed no matter the decision. It’s unfortunate that the members of the Phoenix club have found themselves in this spot. Since the ballot was drafted in 2003, they have made a sincere effort to avoid using a date that conflicts with BCONC. While the BCONC will probably lose a small percentage of their entry, it concerns me more that this may spell the end for the Phoenix club to be able to even put on a specialty show, in fact the only basenji specialty in the southwest US. The distance between both these clubs is also a significant factor to be considered. While it’s true they are both in the same region, the BCOA only has three regions that are very large. The original ballot 2003-35, written when the club had 4 regions, declares that clubs in the same region may not use the same specialty dates. What the language fails to address is that, based on that ruling, it exempts clubs in a neighboring region from scheduling a conflicting date used by a club in the next region. As long as the club in the neighboring region complies with the AKC 200 mile rule, BCOA would have difficulty enforcing the original rule. This is a serious issue that should be addressed on a case-by-base basis because circumstances can vary from one region to another.”]; Stargell [“This is a tough one, because I agree with all the comments that both clubs will lose out on a minority of their entries if the specialties are on the same weekend. Having said that, 700 miles is a heck of a long way, and the AZ specialty would offer a venue that is more accessible to the central/mid-west area.”]

**DISAPPROVED:** Auerbach; Bolté; Curby; Hesse [“I really do think that we should get approval from BCONC for a conflicting specialty on their legacy show date that is close enough to affect their entries. That said, I sincerely hope that once BCONC no longer feels itself the victim, it will take the high road and grant that approval. It would be the right, generous, and decent thing to do for a fellow basenji club that finds itself between a rock and a hard place. Surely the clubs could find a way if their heart was in the right place ... one for all and all for one in the basenji world.”]; Jones [“If The Basenji Fanciers of Greater Phoenix hold their specialty show on the same weekend as the Basenji Club of Northern California’s specialty shows, the two clubs will be unnecessarily competing against

Continued from page 6

**SUBJECT: REQUEST FOR SPECIALTY DATE**

each other. It is in the best interest of both specialty clubs that they avoid holding shows that are in direct conflict with each other. Since the Northern California Club has held their specialty show on week 42 for all but one weekend in the past 25 years, they should be given priority for this particular weekend.”]; Schreiber [“We need to provide BCOA affiliate clubs that draw from the same geographic pool of entries with some sense of security that their specialty entries will not be decreased by conflicting BCOA-approved affiliate club specialty dates within the same region. In the case at hand, while the AZ and CA events at issue would be 700 miles apart, both events would compete directly with one another for entries from Southern California. Historically (2005, 2006 - but discounting 2007 since BCONC's specialty followed the National in '07) BCONC has drawn very close to 20% of its entry from Southern California and Arizona. Unless two affiliates within a BCOA region agree to share a specialty weekend, I am not comfortable approving a specialty date within the same BCOA region that conflicts with another affiliates' long-standing legacy date.”]

**BALLOT 2008 – 1**

**SUBJECT: ADMINISTRATIVE PROCEDURES**

Postmarked January 2, 2008

Effective January 11, 2008

Circulated at the request of the President.

Please mark your vote on approving the following administrative procedures for the 2008 Club year:

Unless otherwise indicated on the ballot, all Board ballots must be in the hands of the President and Secretary within ten (10) days of the postmarked date on the ballot envelope or electronic record.

Ballots must in all cases be presented to the President for circulation through the office of the Secretary.

An affirmative vote shall require a majority of those voting, except where otherwise specified in the By-Laws. A vote “WITHHELD” shall not be included in the ballot count.

The President will cast her ballot only in the case of a tie.

Votes submitted by USPS, FAX, or electronic mail will be acceptable.

Matters under review or discussion by the Board and ballots in circulation may be discussed among any or all Board members, but such discussion shall not appear in public forum of any sort, electronic or other. Occasionally non-Board members with pertinent information and/or experience may be included in discussion of a specific ballot.

During electronic communication, the subject line should be pertinent to the thread of conversation. If the subject matter deviates from the original content, the subject line shall be changed.

Respect and courtesy are essential in discussing club business. Personal comments should be taken to a private conversation between those individuals.

**APPROVED:**

Auerbach [“ I believe #6 should be clarified and perhaps reworded, as it appears to cause significant confusion. Per my understanding of the recent discussion of the Board, "Occasionally" refers only to occasionally including non-Board members in discussions of the full Board, not private communications between Board members and non-Board members. Board members may privately discuss items currently under consideration with non-Board members - the discussion forbidden by this section is discussion in a public forum such as an email list or club meeting, not private communications. Further, #6 does not prohibit the sharing of agendas or ballots by the Board, if the Board chooses to do so in future.”]; Bolté; Curby; Graves; Greenlee; Hesse; Jones; Pooley; Schreiber; Stargell [“I feel that item 6 could be worded more clearly to reflect that actual intent of the procedure. It is important to note that the last sentence is referring to discussions with the whole board simultaneously (thus the "occasionally" aspect). This procedure does not place any frequency restrictions on private discussions with regard to a specific ballot between a director and members of the club.”]

### **Vickie Perrine**

Vickie Perrine and her husband Danny were involved in a serious automobile accident on January 11. Vickie remains hospitalized at Aultman Hospital in Canton Ohio, still in a coma and recovering from a serious head injury along with other injuries. Danny was treated and released, but remains at Vickie's bedside. Vickie (and Parry Tallmadge) breed under the kennel name Rugosa.
