RE: CLINICAL AND LABOLATORY REPORT

This is to certify that I have carried out clinical and laboratory examination on *F. K. K. Davis & Jas. Gurby*.....Dog currently residing at Entebbe. It is traveling to New York, USA on the 6th February 2008. All the necessary vaccinations including rabies have been done. The dog has been on regular/routine treatment for control of intestinal, lung and heartworms as well as skin parasites. The dog is in good condition and therefore you may authorize its travel.

The description of the dog is elaborated below.

Name	Microchip no.	Breed	Sex	Date Of Birth	Color
 968000004588116		Basenji	Male	19 th /11/2007	Black & Tan

Place:

Kampala

Date:

05 / Feb / 2008
