AKC Basenji Judge Evaluator LINDA SCANLON

AKC Basenji Breeder Judge Evaluator MARIANNE KLUNKOWSKI

Basenji Breeder Evaluator BRENDA CASSELL

Fee of \$50 made payable to BCOA. Mail application, required 3 photos and fee to: Pam Geoffroy, 197 Mt. Hope St, North Attleboro, MA 02760. Fee is not refundable. This form due on December 1.

If your dog fails to get a rating of Fair or above or you fail to show up to your designated evaluation, you will have one chance to reapply and pay an additional fee of \$50.

## AVUVI ENAGNON

"Kudo"

Kudo comes from a tiny Fongbe village in Benin which is accessible only by a rugged footpath, brought out by a Beninese boy, Nestor Djossou. "Enagnon" means "it will be good!" in Fon, and Kudo has certainly been a good dog and a great addition to our basenji family.

The first thing most people notice about Kudo is his dark chestnut color. He is minimally marked (chest and toes). His HealthGene color analysis showed him to be EeBBDDayay. He is missing the last two joints on his tail, so we're not sure what the tail tip looked like. Unlike many recent imports, Kudo is squarely built—exactly 17" x 17"—and weighs 24lb. He has lovely, typical bone and feet, including the joined center toes of the basenji. His head is very old-style, and has become a bit cheekier as he has aged. He has a correct scissors bite and dark pigment. When alert and moving, he carries his tail over his back; when stacked, not so much. The photo of his right side was taken when he was 2 years old, the others when he was 7 to 8.

He's a very happy little guy, cautious at first with strangers, but soon wagging his tail and jumping up next to them on the couch. He has an impressive growl/snarl for strange dogs, but will baroo for people he likes. He is always extremely aware of everything around him, and has been easily trainable with the clicker.

When bred to his littermate, he produced his lovely color in 3 of 4 puppies and curlier tails in all. The two I have seen have gorgeous heads and single+ curled tails. I think he would be a great addition to our gene pool.
