AKC Approved Basenji Judge – Edna K. Martin   10/10/2008

This dog is certainly of sufficient quality to be shown at AKC conformation events. While he is a big dog and slightly off of square, he is not course. His elegance and carriage are particularly exemplary when moving. He lacks rear propulsion by virtue of longer rear pasterns than necessary, but his balance and fluidity are quite apparent. Of exceptional quality are his muzzle to skull proportions, lovely ear-set and placement, good pasterns and feet. His shoulder angulation is a bit straighter than ideal, but is properly set on the body and is attached to a long and well-angulated upper arm. Brisket is to the elbow and chest is well developed without heaviness. Topline is level and strong, tail-set is good – better in movement than at rest. Tail loosely curled, as is more typical of native stock. Overall, a lovely dog.

Rating 5 Excellent

AKC Approved Basenji-Breeder Judge – Marianne Klinkowski   09/21/2008

Very typical Basenji dog with easy, ground covering stride; sound coming and going. Well-angulated front and rear with equal length of shoulder and upper arm. Strong, level topline and brisket deep to elbow with good fill in front; very good tuck-up. Off-square, well-marked brindle dog with defined black stripes on a background of chestnut red; pliant skin, clean, fine bone, and compact feet with well-arched toes and thick pads. Attractive head with small ears, dark, dark eyes, proper skull/muzzle ratio and scissors bite with large, strong teeth. Calm, stable temperament showing intelligence and good sense; reserved with strangers but affectionate with those he loves. To my mind, this is a Basenji.

Rating 4 Very Good

Long-Time Breeder – Carol Webb   09/18/2008

In my opinion, this is a Basenji. He is a bit tall, but within acceptable height. Long in loin, nice angulation, moves well. Lovely almond eyes, very dark. Nice ears. Not much wrinkle. He has a loose tail, but set fairly well when at ease. Excellent bite.

Rating 4 Very Good

Evaluator's comments:
This dog is certainly of sufficient quality to be shown at AKC Conformation events. While he is a big dog, he is not coarse. The pelage and carriage are particularly exemplary when the mover. The neck is long and free, the head well proportioned by virtue of a long hair pasture. The neck, set on a fairly well developed thorax, displays an excellent balance and fluency when the mover. The legs are long and free, the movement fluid yet strong. The coat is well developed without heaviness.
